## Contents

Reader expectations .....	4
SECTION A: Practical Information .....	5
SECTION B: SUPPORTING DOCUMENTS .....	7
SECTION C: DISSEMINATION MATERIAL .....	8
A. Summary of training.....	9
B. Summary of the Genie platform .....	9
C. Summary of the personalised actions.....	10

## Reader expectations:

Related to IO2: Content and Facilitating Tools and the activity A3: pilot testing of the in SCREENMODE project, this booklet presents the guidance that the partners will need to follow for the pilot testing activity. Emphasys Centre will provide a template for planning and organisation, support and follow up (evaluation and report).

The topics that will be presented are:

- Practical information
- Supporting documents
- Dissemination material
- Summary of training
  - Summary of training survey
  - Summary of the evaluation survey regarding the Genie
  - Summary of the personalised actions from the training feedback form

## SECTION A: Practical Information

*Please give the following practical information*

<b>Name of Organisation</b>	Stowarzyszenie Instytut Nowych Technologii
<b>Venue of Pilot Tests- Validation Workshops</b>	Lodz
<i>Date</i>	26.06.2019
<b>Number of participants</b>	19 (participants did not want to give their e-mail addresses)

<p><b>Names of participants</b>  <i>Please upload scanned versions of signatures and participants</i></p>	<p>Maciek Janiak  Natalia Kawalec  Adrian Bednarek  Błażej Błażej  Dominik Dominik  Ilona Zdziechowiak  Julka Olińska  Kacper Matusiak  Karolina Stega  Zuzia Jatlewska  Daria Zurzewska  Weronika Walak  Marcel Wołoszynowski  Norbert Stańczyk  Klaudia Jakubowska  Jakub Wołoszynowicz  Natalia Brzozowska  Jan Helt  Marcin Wolski</p>
<p><b>Number of trainers</b></p>	<p>8 (one trainers signed both – trainers and participants lists)</p>
<p><b>Names of trainers</b></p>	<p>Urszula Molińska  Agnieszka Bosak  Agata Kobylińska</p>

## A. Summary of training survey

*(What they thought of the trainers offering a face-to-face course, the facilities, the session, Impact of the training and or suggestions for improvement points if any)*

The tool was seen as an interesting tool for both – youth and educators.

They found it as a useful tool for their activities, but they said that some improvements are needed.

This test, survey and advice should BE the beginning of workshops for young people about Internet addiction.

## B. Summary of the evaluation survey regarding the Genie

*(The design, structure and content of the platform, please give positive, negative or suggestions for improvement points)*

Participants remarks:

- 1 question should contain asking about one data, not two data in one question
- Questions should be more concrete
- In questions, we can add examples of bad behaviours for better understanding of the problem and better recognition of this problem in my situation
- There is no option to start the survey, leave it and the start form the point in which I left the survey
- In Genie automatically there is the English language – when I choose Polish and then leave the survey, when I came back, again there is English
- Telephones to some medical advice should be more visible

## C. Summary of the personalised actions from the training feedback form

*(Content of the time management, coping with negative urges and suggestions for improvement)*

Participants remarks:

- too much content, not enough graphics – they recommend to make the action more user-friendly and prepare more graphics
- not enough advice and content about pornography
